

# Action Calendar

The Action [calendar](#) is a [module](#) which shows system events in a chronological order. Also known as the Tools Calendar

Please add this page to the [refactor](#) list. The feature has changed substantially and the graphics no longer show what the user will experience. Especially the 2nd one.

## Tiki Calendar

November

S	M	T	W	T	F	S
25	26	27	28	29	30	31
01	02	03	04	05	06	07
08	09	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	01	02	03	04	05

examples of actions:

creation or edit of a wiki page

upload of a file including date and time, user, and description.

## Requires:

permission tiki\_p\_view\_tiki\_calendar.

Activate feature in Admin>Calendar

## Event Listing

Once you have the calendar active you can click on a day to see the listing of events for that day. (sorry for the slightly chopped up screenshot)

The screenshot shows the 'Tiki Action Calendar' interface. At the top, there are navigation buttons: 'Do not group by item', 'Filter', and 'List View'. Below these are icons for different calendar views (Day, Week, Month) and navigation arrows. The main focus is on 'Tuesday 11 of November, 2008'. A horizontal bar below the focus shows '« November 11 »'. The main content area is a table with two columns: 'Hours' and 'Events'. The 'Hours' column lists times from 15h to 23h. The 'Events' column shows a list of actions for each hour. For example, at 16h, there are three events: '16:29 : wiki page : Learning - 16:29 : Updated by Joanne', '16:25 : wiki page : Teaching (x2) - 16:25 : Updated by Joanne', and '16:26 : Updated by Joanne'.
