

ColorBox for JQuery

Since **Tiki 4.0** ColorBox is a new **jQuery** plugin which is replacing **ShadowBox** visual effects.

screenshot will come here

Usage Examples

this code:

produces:

ColorBox "Gallery"

and this way you can have more images in wiki page displayed in the shadowbox as a gallery:

```
{img src="http://farm3.static.flickr.com/2091/1532249675_5f917a49ac_s.jpg"
link="http://farm3.static.flickr.com/2091/1532249675_5f917a49ac_b.jpg" title="Some Image from flickr.com"
rel="shadowbox[gallery]} {img src="http://farm2.static.flickr.com/1185/1467868764_898ec5daf3_s.jpg"
link="http://farm2.static.flickr.com/1185/1467868764_898ec5daf3_b.jpg" title="Old Port in Trogir by luci"
rel="shadowbox[gallery]} {img src="http://farm3.static.flickr.com/2212/1532365551_6856d00717_s.jpg"
link="http://farm3.static.flickr.com/2212/1532365551_a1ad132f1c_o.jpg" title="Sun Going Down by luci"
rel="shadowbox[gallery]}
```

results in:

Using html code with SEURL activated

Note: due to specific settings at doc it is not possible to call images directly using `displayfileId` or `tiki-download_file.php?fileId=fileId&display`. It should work fine on your Tiki.

[Using html code](#)

~~Wanna YouTube video in the box ?~~

[<http://www.youtube.com/v/KBewVCducWw&autoplay=1>|You Tube video in their flash player|shadowbox;width=405;height=340;]

watch it here:

[You Tube video in their flash player](#)

A button opens content in a box

```
{BUTTON(href="HomePage",_rel="box",_text="Go there")}{BUTTON}
```

will create a button that opens the))HomePage((in a colorbox:

[Go there](#)

Inline content in a *box trick

```
[#helloworld|Click Me !|shadowbox;width=280;height=180;title=Login Box] {BOX(id=helloworld,class=wiki-  
edithelp)}{TAG(tag=div,style=background-color: white !important;)} --- ::_Hello world !_::  
{MODULE(module=login_box)}{MODULE} ::Thank you for trying me !:: --- {TAG}{BOX}
```

looks like:

[Click Me !](#)

Content loaded using Ajax

Example1

Code:

```
{JQ()}{jq("#ajaxload a").colorbox({ href: function(){ return jq(this).attr('href')+'.wikitext'; } }  
);{JQ}{DIV(id="ajaxload")}{tiki-index_raw.php?page=HomePage|Content of a wiki page in ColorBox}{DIV}
```

Result:

[Content of a wiki page in ColorBox](#)

Example2

Code:

```
[http://zukakakina.com/tiki-index_raw.php?page=HomePage|Content of a wiki page in ColorBox|box]
```

Result:

[Content of a wiki page in ColorBox](#)
