Contacts (Address Book)

- Contacts allows a user to keep a personal or shared address book.
- In 1.10, tiki-contacts.php has been re-written. Contacts used to be only in webmail before (tiki-webmail.php?locSection=contacts)
- Starting in 1.10, Contacts can now be shared with other groups.
- In addition to 1.9 fields (First Name, Last Name, Email, Nickname), many more fields (City, Company, Country, Department, Division, Job Title, Organization, Personal Fax, Personal Mobile, Personal Phone, State, Street Address, Work Fax, Work Mobile, Work Phone, Zip Code) have been added in 1.10 and you can now add custom fields.

Permissions

At this writing, no permissions exist for Contacts.
