How to search currency amounts

Trackers can be used to tracked financial data with the Currency Amount Tracker Field.
In which case, you'll likely want to search the data. *Where is this amount tracked?*
f you are looking for a specific amount, you can do a search (in the global search box) with the currency. Valid format
examples:

- 498.33USD
- 8.95CAD
- 875CAD
- 875.00CAD

This will work well with Manticore Search and Elasticsearch. To be tested with the MySQL and MariaDB indexes.
