- Control Panels

Usage

It is not enabled by default on fresh installs, even if it is a very wise addition to add it.

Admin bar module in the Module plugin

```
{MODULE(module=adminbar, mode=module)}{MODULE}
```

Parameters

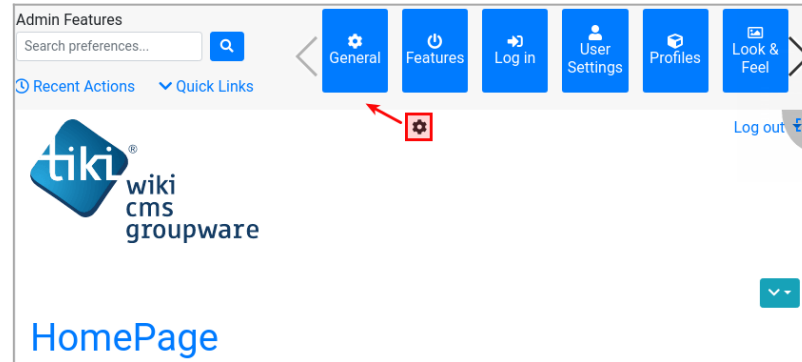

Consolidated admin bar with an easy access to quick admin links, recent changes, and important admin features

[Go to the source code](#)

Parameters	Accepted Values	Description	Default	Since
mode		Display mode: module or header. Leave empty for module mode		

Example

Adding this module to the zop zone with mode=header and nobox: y would produce something like:

Click to expand

When you click on the icon, a new admin bar is shown at the top, as demonstrated in the image above, with links to history of actions performed as admin, quick links to usual tasks, and buttons to the main control panels with controls to display more buttons to the sides of that bar if requested with the side arrows.
