

# Module last\_blog\_posts

This module shows the last blog posts.

---

This is a stub. Some screenshot is needed

---

# Parameters

Lists the specified number of blogs posts from newest to oldest.

[Go to the source code](#)

*Preferences required:* `feature_blogs`

| Parameters          | Accepted Values | Description   | Default | Since |
|---------------------|-----------------|---|---------|-------|
| <code>nodate</code> |                 | If set to "y", the date of posts is not displayed in the module box. Default: "n".  |         |       |
| <code>blogid</code> |                 | If set to a blog identifier, restricts the blog posts to those in the identified blog. Example value: 13. Not set by default. |         |       |
