# Must Reads

New feature added in Tiki 14.0.

This is a stub. In the meantime, you can see https://dev.tiki.org/Must+Reads+Feature

This feature is based on Trackers, and it creates a Tracker called "Must Read".

### Plugin Image

The "id" parameter is not allowed unless "file\_galleries\_redirect\_from\_image\_gallery" preference is enabled.

It has a field to indicate the relation with a Wiki Page:

The "id" parameter is not allowed unless "file\_galleries\_redirect\_from\_image\_gallery" preference is enabled.

And another field for User Selector, with Auto-assign selecting "Creator":

The "id" parameter is not allowed unless "file\_galleries\_redirect\_from\_image\_gallery" preference is enabled.

At the Control Panels, Community you have to enable the "Must Read" feature. You can indicate the name of the Tiki tracker that will be holding the information and fields for the Must Reads feature (just below the checkbox to enable the feature):
