Example

This code:

```
{TABS(name="user_tabset_01" tabs="Title 1|Title 2|Title3")}This is the content of the first tab ///// This is the content of the second tab ///// This is the content of the third tab {TABS}
```

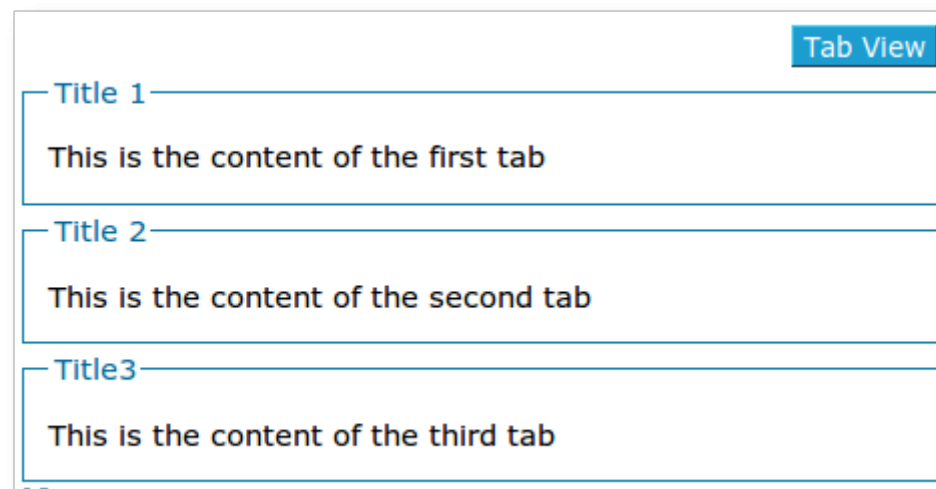

Would produce:

This is the content of the first tab

This is the content of the second tab

This is the content of the third tab

When clicking on a tab name, the content of each tab is loaded and shown without refreshing the browser window.
And when clicking on the "**No Tabs**" option, the display would change into:
