| Parameters       | Accepted Values   | Description                                                                                                                                                    | Default          | Since |
|------------------|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|-------|
| (body of plugin) |                   | remarks text                                                                                                                                                   |                  |       |
| icon             | text              | Enter a custom icon name (from tiki available icon at <a href="https://doc.tiki.org/PluginIcon">https://doc.tiki.org/PluginIcon</a> )                          |                  | 2.0   |
| id               | text              | Sets an HTML id for the account.                                                                                                                               |                  | 14.0  |
| store_cookie     | (blank)<br>y<br>n | Set whether to remember if the alert is dismissed (not remembered by default).<br>Requires <code>id</code> and <code>version</code> parameters to be set.      |                  | 14.0  |
| title            | text              | Label displayed above the remark.                                                                                                                              |                  | 2.0   |
| title_class      | text              |                                                                                                                                                                | alert-heading h4 | 21.1  |
| version          | text              | Sets a version for the alert. If new version, the alert should show up again even if it was previously dismissed using the <code>store_cookie</code> parameter |                  | 14.0  |
| width            | text              | Width (e.g. <code>100%</code> or <code>250px</code> - default <code>""</code> )                                                                                |                  | 4.1   |
| close            | (blank)<br>y<br>n | Show a close button (not shown by default).                                                                                                                    | y                | 4.0   |

|           |                                                                                  |                                                                                   |     |      |
|-----------|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----|------|
| highlight | (blank)<br>y<br>n                                                                | Use the highlight class for formatting (not used by default).                     |     | 2.0  |
| title_tag | (blank)<br>div<br>h4                                                             |                                                                                   | div | 21.1 |
| type      | (blank)<br>comment<br>confirm<br>errors<br>information<br>note<br>tip<br>warning | Select type of remarksbox, which determines what icon and style will be displayed | tip | 2.0  |

# 예 제

아래의 코드는 4개의 사용가능한 유형을 보여주며, 각각에 해당하는 예제를 보여줍니다:

```
{REMARKSBOX(type=>tip|comment|note|warning, title=>Tip|Comment|Note|Warning)}remarks
text{REMARKSBOX}
```

이는 다음의 4개의 결과를 불러오게 됩니다 (별도로 코딩되었을 경우):

Comment

remarks text

Confirm
