

Calendar Invitations by email

New in [Tiki21](#), you can manage calendar invitations, powered by [SabreDAV](#), and using Tiki [Webmail](#) (powered by Cypht Webmail). See also [CalDAV](#). This development was done as part of [Email as a first-class citizen](#).

How to activate

The screenshot shows a web browser window with the address bar displaying `'tiki-admin_calendars.php?calendarId=4&cookietab=2`. The form contains the following fields:

- Name:** A text input field containing the value "Test".
- Description:** A large, empty text area.
- Custom location:** A dropdown menu with "No" selected, and a checkbox labeled "Show in popup box" which is unchecked.
- Custom participants:** A dropdown menu with "Yes" selected, and a checkbox labeled "Show in popup box" which is unchecked.
- Custom classification:** A dropdown menu with "No" selected, and a checkbox labeled "Show in popup box" which is unchecked.

Red curved lines are drawn across the form, highlighting the "Custom location", "Custom participants", and "Custom classification" rows.

How to invite

2019-03-01 6:45:22 PM

When adding or modifying an event, you can invite TBI users or emails

Create calendar event
