

Plugin Color Box

This [wiki plugin](#), introduced in [Tiki5](#), is used to display one image of a file gallery or image gallery and when you click on it, it opens a popup/slideshow of all the images of the same gallery. The slideshow is done by the [colorbox](#) library.

Parameters

Display a gallery of images in a popup slideshow

Introduced in Tiki 5.

[Go to the source code](#)

Preferences required: feature_file_galleries, feature_shadowbox, wikiplugin_colorbox

Parameters	Accepted Values	Description	Default	Since
sort_mode		Sort by database table field name, ascending or descending. Examples: <code>fileId_asc</code> or <code>name_desc</code> .	<code>created_desc</code>	5.0
fgalId		ID number of the file gallery that contains the images to be displayed		5.0

thumb		Display as a thumbnail or full size.	<code>y</code>	5.0

Example

This code:

```
{colorbox fgallId="6" thumb="y"}
```

Would produce on this site:

Tips

- To have a localized description, you can use the param `parsedescriptions` and use `{LANG(lang=en)}xxxx{LANG}{LANG=fr}yyy{LANG}`
- Users require the [permission](#) `tiki_p_view_file_gallery` on the filegal referenced in the plugin.
