

PluginTikiManagerClone

This is a [Wiki Plugin](#) which embeds a button in a wiki page to perform a pre-configured clone or clone and upgrade action of an instance in [Tiki Manager](#)

This makes it simple for operations like:

- Clone from production to staging
- Clone from staging to production
- etc.

Like [PluginTikiManagerUpdate](#), it requires the [Tiki Manager Package](#)

Parameters

Plugin PluginTikiDocFromCode failed : Either the module, plugin, preferences, tracker field or prefsexport parameter must be set, but not two or more.
